

Adaptive
Recreation

Remember the first time you picked up a piece of chalk and drew a picture on the sidewalk? The first time you painted a picture and watched the colors mix on the paper?

Arts for All art tools are designed so that participants with limited movement or lack of fine motor skills can be successful. The benefits of participating in Arts for All improve an individuals mobility skills and coordination, ability to express creativity, and helps develop better self-esteem.

ARTS FOR ALL

_____ I would like more information about incorporation Arts for All activities into community events.

_____ I am interested in hosting/scheduling an Art Day, a day where Arts for All works directly with learners of all abilities: for educators, therapists, parents and staff from service agencies.

_____ Please send information about renting the Arts for All art tools and supplies.
